

INT. BANK VAULT - DAY

Master criminals raid the city's bank vault.

CRIME BOSS
Gentleman, I know I told you that
you'd each be taking home 8 million
dollars, but I was wrong.

The criminals look disappointed.

CRIME BOSS (CONT'D)
Turns out, we're each going to take
home 10 million!

The criminals celebrate.

THE NEWT
(from the Vom)
Not so fast!

The Newt marches on stage. Superhero music plays.

CRIME BOSS
The Newt! I should have known!

THE NEWT
That money is supposed to go to the
city's orphans.

CRIMINAL 1
It still is - we was all orphans!

The criminals laugh.

THE NEWT
Wisecracker, aren't you? Like
taking money from innocent kids?
Sounds like you need a lesson from
Sir Issac Newton.

CRIMINAL 1
Huh?

THE NEWT
Every action has an equal and
opposite reaction!

The Newt punches out Criminal 1. Criminal 2 shoots at The
Newt, who turns to deal with him.

INT. BANK VAULT - DAY

Master criminals raid the city's bank vault.

CRIME BOSS Gentleman, I know I told you that you'd each be taking home 8 million dollars, but I was wrong.

The criminals look disappointed.

CRIME BOSS (CONT'D) Turns out, we're each going to take home 10 million!

The criminals celebrate.

THE NEWT (from the Vom) Not so fast!

The Newt marches on stage. Superhero music plays.

CRIME BOSS The Newt! I should have known!

THE NEWT That money is supposed to go to the city's orphans.

CRIMINAL 1 It still is - we was all orphans!

The criminals laugh.

THE NEWT Wisecracker, aren't you? Like taking money from innocent kids? Sounds like you need a lesson from Sir Issac Newton.

CRIMINAL 1 Huh?

THE NEWT Every action has an equal and opposite reaction!

The Newt punches out Criminal 1. Criminal 2 shoots at The Newt, who turns to deal with him.

THE NEWT (CONT'D)
Think guns are the answer? Well,
every action has an equal and
opposite reaction!

He punches out criminal 2. Criminal 3 pulls a knife on him.

CRIMINAL 3
I'm gonna kill you, Newt!

THE NEWT
Well, you know what Sir Issac
Newton says - The relationship
between an object mass, it's
acceleration, and the applied force
is Force equals mass times
acceleration!

He lands a weak punch of Criminal 3, who looks at the Newt
dumbfounded.

CRIME BOSS
What was that?

THE NEWT
I thought I'd mix it up a bit.

CRIME BOSS
But, that doesn't make any sense!

THE NEWT
Doesn't make any sense - I'm pretty
sure the folks at MIT would beg to
differ!

CRIME BOSS
Okay as a scientific principle it
makes sense, but as a catch phrase?
Why not stick with what it works?

THE NEWT
My sidekick says my material is
getting stale.

CRIME BOSS
Well don't feel too bad, soon your
material - will be dead!

He pulls out a pair of nunchuks, and The Newt gets into
fighting stance. Tad comes in.

TAD
Sorry I'm late, Newt!

THE NEWT (CONT'D) Think guns are the answer? Well, every action has an equal and opposite reaction!

He punches out criminal 2. Criminal 3 pulls a knife on him.

CRIMINAL 3 I'm gonna kill you, Newt!

THE NEWT Well, you know what Sir Issac Newton says - The relationship between an object mass, it's acceleration, and the applied force is Force equals mass times acceleration!

He lands a weak punch of Criminal 3, who looks at the Newt dumbfounded.

CRIME BOSS What was that?

THE NEWT I thought I'd mix it up a bit.

CRIME BOSS But, that doesn't make any sense!

THE NEWT Doesn't make any sense - I'm pretty sure the folks at MIT would beg to differ!

CRIME BOSS Okay as a scientific principle it makes sense, but as a catch phrase? Why not stick with what it works?

THE NEWT My sidekick says my material is getting stale.

CRIME BOSS Well don't feel too bad, soon your material - will be dead!
He pulls out a pair of nunchuks, and The Newt gets into fighting stance. Tad comes in.

TAD Sorry I'm late, Newt!

The Newt covers the Crime Boss, and Tad, Criminal 3.

THE NEWT

Just in time...I tried out a new catch phrase.

TAD

How'd it go?

THE NEWT

Not good.

TAD

What'd you use.

THE NEWT

Newton's Second Law of Motion.

TAD

I told you that'd go over their heads!

THE NEWT

Well, maybe if you had offered some alternatives rather than just criticisms.

TAD

I'm sure Einstein said someth-

THE NEWT

Dammit, Tad! I'm a Newton Man! Why do you think my name is The Newt!

TAD

I thought it was because your limbs regenerated quickly.

Tad punches out Criminal 3. And they both turn to corner the Crime Boss.

CRIME BOSS

Wait, guys! Let's make an arrangement - we can split the money together!

TAD

We've got you cornered, next stop is the city jail!

CRIME BOSS

No! I can't go back!

The Newt covers the Crime Boss, and Tad, Criminal 3.

THE NEWT Just in time...I tried out a new catch phrase.

TAD How'd it go?

THE NEWT Not good.

TAD What'd you use.

THE NEWT Newton's Second Law of Motion.

TAD I told you that'd go over their heads!

THE NEWT Well, maybe if you had offered some alternatives rather than just criticisms.

TAD I'm sure Einstein said someth-

THE NEWT Dammit, Tad! I'm a Newton Man! Why do you think my name is The Newt!

TAD I thought it was because your limbs regenerated quickly.

Tad punches out Criminal 3. And they both turn to corner the Crime Boss.

CRIME BOSS Wait, guys! Let's make an arrangement - we can split the money together!

TAD We've got you cornered, next stop is the city jail!

CRIME BOSS No! I can't go back!

THE NEWT

Looks to me like you've run out of options and are just running around in circles! Maybe you need a lesson from Sir Issac Newton!

CRIME BOSS

I get it, all right. Every action has an equal and opposite -

THE NEWT

Ha ha. Sounds like I need to teach you Newton's FIRST law of motion.

CRIME BOSS & TAD

Huh?

THE NEWT

You like running around in circles? Well, every object in a state of uniform motion tends to remain in that state of motion unless an external force is applied to it!

The Newt punches the Crime Boss on the word "Force!"

THE NEWT (CONT'D)

Pretty good, huh?

BLACKOUT

THE NEWT Looks to me like you've run out of options and are just running around in circles! Maybe you need a lesson from Sir Issac Newton!

CRIME BOSS I get it, all right. Every action has an equal and opposite -

THE NEWT Ha ha. Sounds like I need to teach you Newton's FIRST law of motion.

CRIME BOSS & TAD Huh?

THE NEWT You like running around in circles? Well, every object in a state of uniform motion tends to remain in that state of motion unless an external force is applied to it!
