

Privacy Policy for Temperature Converter

Effective Date: 21-11-2024

Last Updated: 21-11-2024

This Privacy Policy explains how **Temperature Converter** handles user data.

1. Data Collection

- The extension does not collect or store personal information.
 - User preferences (e.g., selected units, conversion history) are stored locally on the user's device.
-

2. Data Usage

- Stored preferences are used solely to enhance the user experience.
 - No data is transmitted to external servers or shared with third parties.
-

3. Security

- User data is securely stored on the local device.
 - The extension uses secure protocols to fetch remote updates for conversion factors and algorithms to ensure accuracy.
-

4. Updates

- Updates to this Privacy Policy will be reflected in the extension's update logs.
-
