My Song of Family

My song of family is [Yellow Submarine by The Beatles](#) because our house is just like the song. I chose this song because when they say “we” which is my family it's talking about how they all live in one place we all live under one roof and it's our house that is being called the yellow submarine. There are also other reasons like how we all listen to the beatles and it is one of our favorite songs because when we listen to it it makes us feel comfortable and at home and relaxed. This makes my family and I happy almost anywhere we go. When they say “and our friends are all on board” Its like every thursday where my dad invites our friends to a barbecue and we all eat at one big table. When they say “Many more of them live next door” it is our kind neighbors and if my family needs help they are always there for us. That's why I chose Yellow Submarine to be my song of family.
