

My thoughts/comments italicized Percentages rounded, 98 respondents total, so just take the percentage as how many people answered that way. Example: 15% = 15 out of 98

I am:

98 responses

Male: 87%,

Female: 7%,

Non- Binary: 4%, 4. *At least one of these is an edgy boi.*

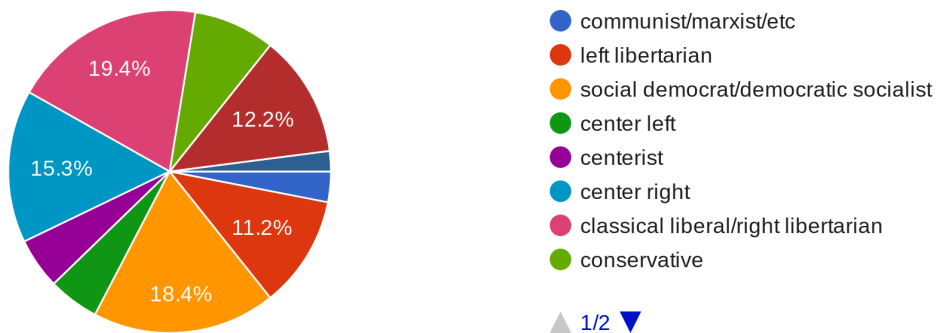

Other: 1%, *one lonely zhe/zeyr (sorry if i got your pronoun wrong)*

Please note, the fact that most respondents are male probably does skew the data. I would guess it skews it at least a bit to the right/libertarian.

I chose to include this question partly because it is somewhat political. Gender is a political issue nowadays. I'm not really on board with the whole "non-binary" thing, but included it to give people that option if that's how they identify.

I would describe my political ideology as: (if none apply, choose closest)

98 responses

These are listed largest to smallest. I will include the color for the two that aren't shown in the key.

Classical Liberal/ Right libertarian: 19%

I know that these are different, but they are close enough. Although i would be curious to the breakdown. However i can't be constantly creating surveys, that'd be annoying.

Social Democrat/Democratic socialist: 18%, 18 out of 98

I KNOW THEY ARE DIFFERENT

Center right: 15%

Alt right (darkest red) : 12%

Oh lawd that edge

Left libertarian: 11%

Conservative: 8%

Center left and Centerist both: 5%

Communist: 3%

Super edgy

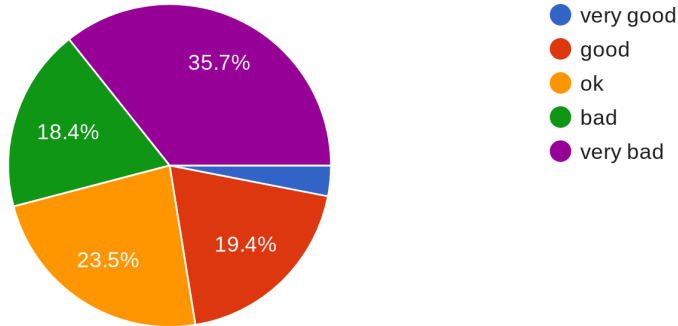

Anarchist: 2%

Maximum edge. Seriously though i like anarchists, i totally understand their logic. As for me not including both ancap and ancom, it doesn't matter because its anarchism.

How is Donald Trump doing as president?

98 responses

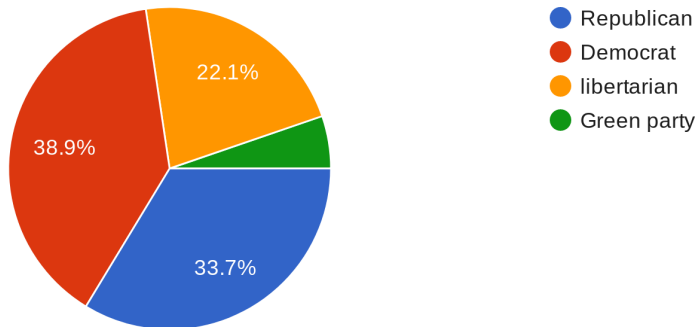

very good is 3%

This is pretty interesting, somewhat even split in like/dislike of Trump, if you include "ok".

In any given election, i would most likely vote for: (US only sorry)

95 responses

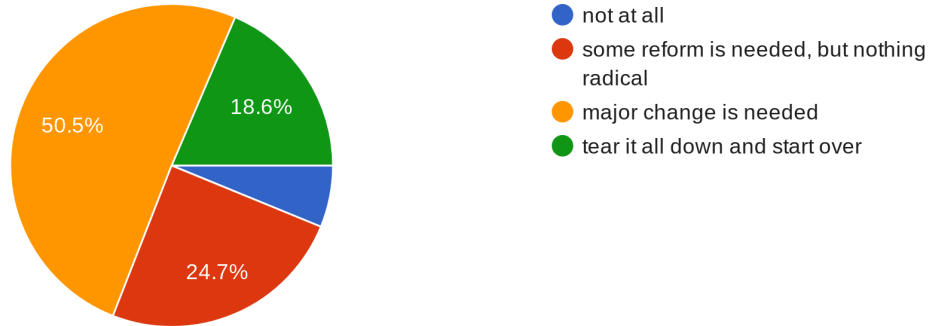

Green party is 5%

This one is even more interesting. Waaaaaay larger % libertarian than they get in elections. Vote guys, seriously. I would love to see an actual viable libertarian candidate.

How much does our political system need to change? (select closest)

97 responses

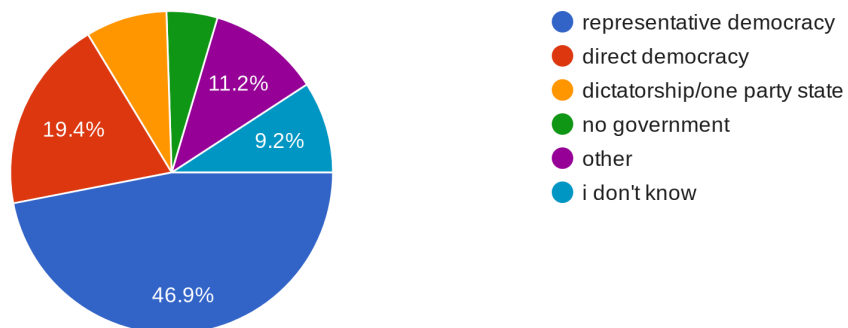

Not at all is 6%

We ain't happy

what is the ideal form of government?

98 responses

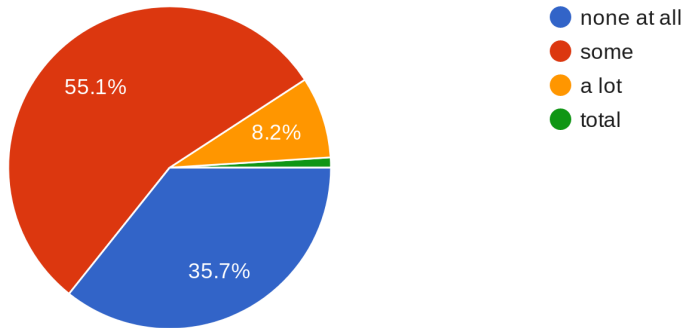

Dictatorship is 8%, no government is 5%.

This one is kind of a relief, given the outcome of the last question. Democracy seems to still be "in" and im glad for that. Seriously though, is there a form of government that isn't at covered here. What is "other"?

My thoughts/comments italicized Percentages rounded, 98 respondents total, so just take the percentage as how many people answered that way. Example: 15% = 15 out of 98

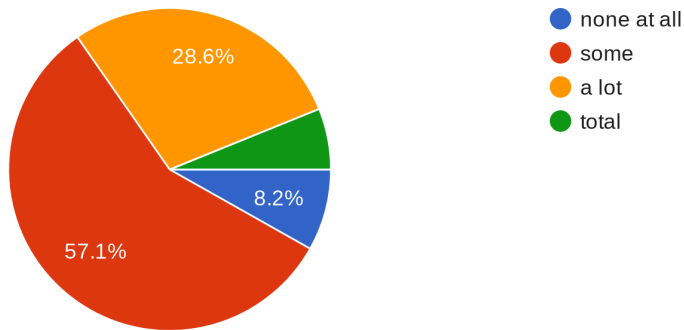

How much influence should the government have on your personal life and the choices you make?

98 responses

How much influence should the government have on the economy?

98 responses

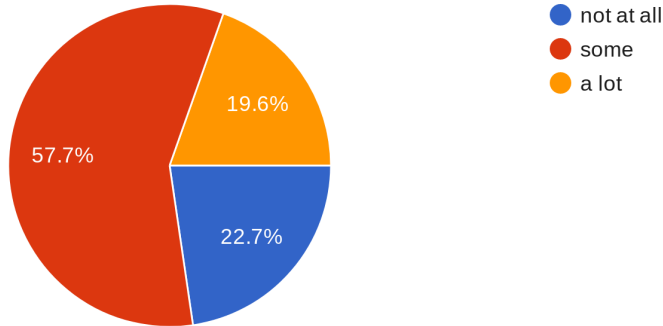

Less relieved now tbh

My thoughts/comments italicized Percentages rounded, 98 respondents total, so just take the percentage as how many people answered that way. Example: 15% = 15 out of 98

How much should the government get involved in world affairs?

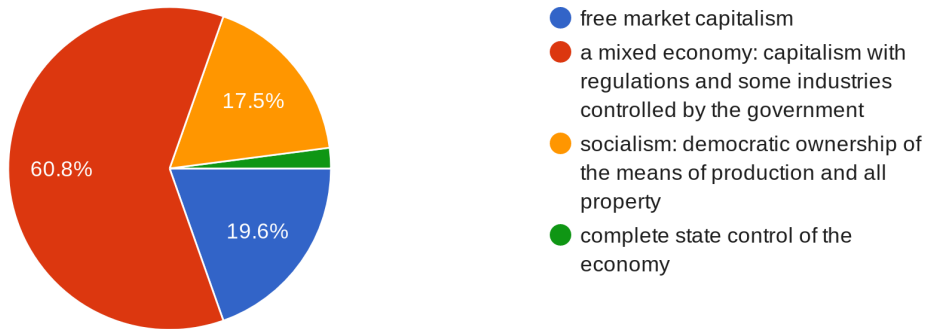

97 responses

Hmm

what is the best economic system (select closest)

97 responses

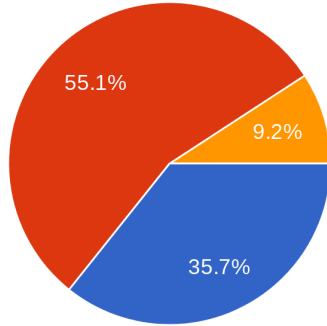

Remember that "real socialism" has never been tried, checkmate capitalist pigs.

Again im relieved, capitalism for the win.

Are you a nationalist?

98 responses

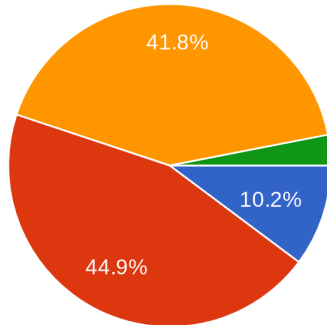

- yes
- no
- i don't know what that means

Ill admit, being myself a nationalist i am a little disappointed.

Do you trust your government?

98 responses

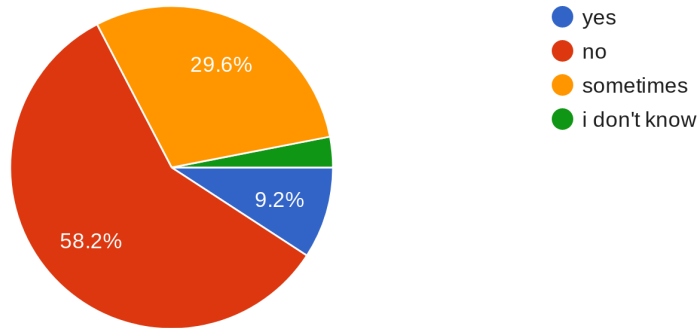

- yes
- no
- sometimes
- i don't know

Stay woke

Do you trust the media?

98 responses

I think we have Pewdiepie and Trump to thank here

Thanks to everyone who took the survey, it was a good time.
