In this **Free Guided Project**, you will:

- ✓ Create a new website for development in WordPress.
- ✓ Edit webpage content, links, and images.
- ✓ Add and organize widgets to a webpage.
- ✓ Showcase this hands-on experience in an interview

 2 hours

 Split-screen video

 Advanced

 English

 No download needed

 Desktop only

By the end of this project, you will create a full web-site that is attractive and user friendly using a free content management system, WordPress. You will learn how to create a website utilizing themes and plug-ins using the web creation tool. You'll have a virtual space to showcase your business with customers who want to stay connected.

Note: This course works best for learners who are based in the North America region. We're currently working on providing the same experience in other regions.

Requirements

This is an advanced level course. Learners should understand web design principles and have familiarity with WordPress.

SKILLS YOU WILL DEVELOP

Web Development Design

Marketing Digital Media

Computer Science
