

Dear Farmington Public Schools Families,

Late bus service is now operational for students in grades 5-12. Late bus service is designed to support participation in after-school activities and academic programs.

Please note the following important details regarding this new transportation service:

- **General Bus Stops:** The late bus routes are not identical to regular home-to-school routes. Late buses operate on a condensed schedule with a limited number of general area bus stops. Students will be dropped off at a designated stop that is the closest and safest option to their home address, rather than their usual, specific bus stop.
- **Student Responsibility:** Students are expected to know which general stop is closest to their residence. When boarding the bus, students must inform the driver of their general area drop-off location. The driver will only make stops within their assigned zone, and areas with no students needing a stop will be eliminated from the route to ensure efficiency.
- **Parental Communication:** We encourage you to discuss the late bus routes with your child to ensure they understand their appropriate drop-off point. It is important that families make arrangements to meet their child at the general bus stop location at the estimated drop-off time. Parents are responsible for the safety of their child to and from this general stop.

Late bus routes and estimated drop-off times can be found [here](#) and will be made available on the Farmington Public Schools website

(<https://fpsct.org/about/transportation/>) and through a communication sent via ParentSquare.
