Get support, resources and information you need through the intranet

If you've been onboarded either as a local, or national organiser you'll get access to our intranet and resources. Simply visit organise.dsyp.org.

⚠ You'll get an automated email saying you've been added to a Google group. If this hasn't happened, email admin@dsyp.org and we can check your access.

You can also access the shared drive from your [Google Drive](#) (under Shared Drives).

You will need to have a Google Account or @gmail.com or @googlemail.com email address. If you're not sure, keep reading.

Having problems? They're easy to fix!

I see an error message or 404 error when I access the intranet

This is because you're signed in to multiple Google Accounts. Visit <https://tinyurl.com/DSYPOrganise> where you can select the Google Account or email address that you used to sign up with us.

⚠ If you create a separate browser profile or browser, stay signed in to just the one Google Account and organise.dsyp.org will work for you without problems.

I don't have a Google Account nor a @gmail.com or @googlemail.com address, help!

It's possible to create a free Google Account using an existing email address.

[Refer to the guide on setting up a Google Account using an existing email address](#)

As long as you've this up with the exact same email address that you used when signing up with us, you will get access to the intranet and shared drive automatically.

⚠ If you've set up a new @gmail or @googlemail address then please let admin@dsyp.org so we can update our records.

I really, really don't want to use Google Services, is there an alternative?

Unfortunately, no. We're setting up systems at pace, on a tight budget on a fast moving campaign and we're using platforms that are commonly used. If you're concerned about privacy and use of Google services, you can set up a fresh Google Account in a separate browser and use other privacy features like VPNs.

⚠ If you've set up a new @gmail or @googlemail address then please let admin@dsyp.org so we can update our records.
