Description & Loadout

Physical Description

Pirate Queen Aspirant Fennyl is best described as a gorgeous, yet dangerous looking Devaronian young woman. Her skin is deep-red, covered in various markings, scars, and pitch black tattoos. Her eyes are yellow, and have been described as a burning sun. Her hair is coloured an ashen brown, and extends to her lower back, and are tied into a neat ponytail. At the top of her head are two black marks/spots which appear above her hairline.

- Assassin Armor (Pitch Black)
- Vibroknife, T-7 Ion Disruptor Rifle

General Aspects

All That Glitters Is Not Gold

Fennyl was, rather unfortunately, orphaned on the streets in a backwater world, and learned to survive through villainy, cunning, and **Manipulation** of people and situations around her. She became to be **somebody** in a galaxy that wanted her to be a **nobody**. Who cares if there were a few corpses along the way? The path to fame and fortune is rarely pathed without blood, and Fennyl knows that all too well.

I Lie, I Cheat, I Steal

Fennyl learned the hard way the cost of survival. The galaxy is not so good and evil, or light and dark so much as it is about getting what you want and getting on top no matter what. **Subterfuge** comes naturally to Fennyl, and it has gotten her out of many sticky situations in the past. Though, to those around her, it can be hard to tell when she is lying or telling the truth.

Personality Aspects

No Time For Pleasantries

Fennyl is the type of Pirate to get straight down to business. When she sees something she wants, there are no winding roads in getting to it. She is determined, ambitious, and stubborn to the point she refuses to let things get in her way. However, sometimes the straightest path is the one most pathed with blood, as many of her Purate cohorts have unfortunately discovered.

Checkmate

At her core, Fennyl only looks out for one person, *herself*. Sure, she'll be nice, cordial, and seem like everyone's friend until they are of no use to her any longer. When things dont go her way, she throws a tantrum like a petulant teenager. She is more than happy to throw lives away in pursuit of her goals if it suits her. Naturally, this means she makes a lot of new friends that don't last very long.

Combat Aspects	
Greedo Shot First Not one to lose advantageous position when presented one. Fennyl is the type to shoot first and ask questions later. If she can avoid a straight up fight by getting the cheap kill quickly, then she can, and will. However, should she fail, her close combat skills leave something to be desired.	Na. You Go First Fennyl never runs into a situation first, proffering to instead send her army of loyal goons and Pirates to do her dirty work for her whilst she supports them with blaster fire. However, her bravado becomes short-lived should her personal guards be defeated. After that, she becomes desperate. Though that just makes her more dangerous.
