

Strategic Priorities 2025-2026

Mission/Purpose: Bellville Collegiate in partnership with Institutes of Higher Education and local businesses gives students empowered by their unique gifts and interests the opportunity to earn college credit, receive industry credentials, and participate in work-based training at no cost.

Vision: Students prepare for post-secondary success in the work field of their choice through academic and work-based learning experiences that are purposeful, meaningful, and challenging.

P-TECH Long-Term Strategic Priorities and Key Actions

STUDENTS

Priority

Develop and attain marketing, recruitment, retention, and acknowledgement standards and practices to ensure vision, mission, goals, and OBMs are met and exceeded.

Key Actions

- Continue to focus on Marketing and Recruitment to ensure vision, mission, goals, and OBMs are met
- Develop and implement successful practices to retain current students with a focus on 1st year students
- Celebrate P-TECH students when they hit certain milestones (for example, letter jacket or patches possibilities, white coat ceremony for Health Science students when they get into 3rd year, graduation acknowledgements)

PARTNERSHIPS

Priority

Cultivate connections with local businesses to develop and grow work-based learning opportunities especially practicum opportunities

Key Actions

- Articulate Practicum opportunities to Business Connections
- Grow Practicum opportunities for students

PROGRAMS

Priority

Foster a sustainable, strategic approach to continuous expansion of opportunities within the P-TECH program

Key Actions

- Non-Academic/Workforce Pathways expansion into P-TECH
- Continue to expand P-TECH options for students
- Plan for and develop P13/P14 opportunities

BELLVILLE COLLEGIATE P-TECH

Students prepare for post-secondary success in the work field of their choice through academic & work-based learning experiences that are purposeful, meaningful, & challenging.

P-TECH 2025-2026 Annual Strategic Priorities

- Develop and implement successful practices to retain current students
 - Develop and implement an Orientation to Blinn and college coursework during the time from the beginning of High School to the start of Blinn classes
 - In 2025-2026, use the 9 days (5 red and 4 white days) to provide activities and instruction on the following and additional topics:
 - Time Management
 - Organization Skills
 - Review an example syllabus and what to expect from first Blinn class
 - eCampus Orientation including Blinn eCampus Quick Guide and the Blinn Academic Resources for Online Students
 - Develop and implement a Parent University to help keep parents of P-TECH Students informed of topics and activities related to helping their children be successful in the P-TECH program
 - Develop topics that are needed for parents to assist their children
 - Schedule meetings and events throughout the school year to address timely topics
 - To help deliver the information arrange speakers such as
 - High School Counselors
 - Assistant Superintendent of Academics
 - Blinn College Advisors
 - Technology Specialists
 - Year three P-TECH students
