

**NOTE:** New Student Online Enrollment applies to a student who has never attended LISD or a student that has not been enrolled during the current school year. If this student was previously enrolled in the district this school year, please contact the campus to enroll the student.

**NOTE:** Only the **Primary Guardian** of a student should fill out this application.

You can enroll a new student in the district under Family Access. An overview of the application process is provided below:

- Visit: <https://www.lisd.net/enroll> to determine how to access the application.
- The form can be used for students enrolling now or at the start of the next school year. There is a selection box to indicate when they will begin.
- Each step must be completed and have a completion date displayed before moving to the next step or submitting the application.
- If you edit a step, please MARK IT COMPLETED, as this will be removed when you open the step for editing.
- All forms for both a new student as well as the forms filled out or edited each year will be provided. You may have to confirm the form completion during the regular Forms period for the campus as well.
- **NOTE:** If you want the application to be translated, you must choose that option at the top right-hand corner of the page after you create an account and log in.

## Creating an Account

1. Go to the LISD Home page ([www.lisd.net](http://www.lisd.net))
2. Access the "Parent Tab >> Skyward Family Access"
3. Choose "New Student Enrollment" on the right menu.
4. Carefully read the 2 cases and what you need to do to create an account and submit the application.

## Enrolling a Student

1. Login to Family Access.
2. Select: **New Student Online Enrollment.** (link only available if you are the Primary Guardian)
3. If you have an already started or submitted application, the **Summary Page** will open. If you have never enrolled a student the application will appear.
4. Complete Step #1, filling in all required and available fields. If you have to stop and return, the "Save" option will save your entries. It will NOT mark the step completed. You must do so at the bottom of the step. If you intend to move to step #2, you have the option to mark completed and move to the next step.
5. On step #2, if you are new to the district, fill out every portion. If you are an existing Family, the information associated with your account will populate. If there is something you cannot edit, the Registrar at the campus can change on your behalf when they process the application.

6. Step #4 allows you to fill out forms required for the student. Select the link to each form and fill them out completely. DO NOT CLICK THE "X" or "BACK" to close the window- no changes will be saved! You must select "SAVE" or "SAVE AND PRINT" to ensure the form is properly saved. The form will be marked completed for you ONLY if all required fields have been provided.
7. ALL steps MUST have a completion date showing before you can submit the application. You can return to any step and edit it, but you must choose a completion option at the bottom of that step window. ALL forms have to be marked completed before you can mark Step #4 completed.

### Accessing a Student AFTER Enrollment

After the student has been enrolled by the campus, you can use the "Forgot Login/ Password" link located on the login page for Skyward to request your username and a password reset if the campus did not provide that to you.

1. If the student is enrolling for the CURRENT year, the account is already activated.
2. If the student is enrolling for NEXT school year, the account will only work once we roll the year over on or around August 1st.
