

Outreach DM to Bradley from Crunch Fitness

Hi Bradley, all of the Crunch Fitness TikTok ads have been popping up on my FYP and they look like they are performing well.

The IG reels used to show up on my IG quite often, but I haven't seen them for a while now.

Creating organic social media content will help to gain more followers and push the Crunch Fitness page further in the algorithm by posting more engaging content regularly.

I am a social media manager and digital marketing expert, I am offering to help grow your social media presence and overall bring in new customers into the gym.

If this is something you would be interested in you can send me a message back and we can set up a phone call or a meeting for the near future.
