

Name _____

Color the Neuron and Neuroglial Cells

☐ Oligodendrocytes (purple)

☐ Ependymal Cells (orange)

☐ Microglial cells (yellow)

☐ Astrocyte (green)

☐ Myelin sheaths (pink)

☐ Nodes of Ranvier and the Axon (brown)

☐ Body of Neuron (blue)

☐ Capillary (red)

What is the function of:

1) Oligodendrocytes _____

2) Astrocytes _____

3) Microglial cells _____

4) Myelin sheaths _____

5) Describe the path of a nerve impulse in a neuron starting with the dendrite:
