## Plans:

My plan is to place the keep where you can see the red square. there is a hill in that lace wich will probably need to be flatened.I planned to place the town beneth the hill where the keep will be located. the town will consist of 9/10 houses. most of the myaat lands will be forests with some farms sorraounding the town and some along the roads as you can see. In blue in the top of the imgae you can see where I plan on ading some holdfasts. finally in brown you can see a road that leads to ashmark.
