

BAR Engineering Scholarship

Description

BAR Engineering was established in 1981 and is an energy industry-based engineering firm with a focus on heavy oil facility design and municipal/civil engineering and design work. BAR employs engineers and engineering technologists from a variety of engineering disciplines including, but not limited to, mechanical, civil, electrical and structural. BAR would like to encourage Lloydminster youth to pursue careers in a variety of engineering disciplines.

BAR has a staff of around 90 employees in 2 separate offices located in Lloydminster, AB and Vernon, BC. More information about BAR can be found at www.bareng.ca.
