WHAT IS BEYOND QUANTUM HEALING?

Beyond Quantum Healing (BQH) is on the cutting-edge of healing and transformation. It is a highly advanced and effective heart and energy based modality that allows for deep healing on all levels. The power, beauty, and magic of BQH never cease to astound me! And the best part is that it can be done remotely so you can experience the magic through our connection from anywhere in the world!

With BQH, you are gently guided into a relaxed and focused state of awareness just like following a guided meditation. In this state, we will bypass the conscious, thinking mind and tap into the wisdom and knowing of your subconscious. When you allow your mind to go quiet, you will go deeper and be more OPEN than ever before so you can hear the wisdom of your Higher Self, the part of you that is connected to All That IS.

This part of us goes by many names. Some people call it the God-mind, the Soul, the Higher Self, the Subconscious. Regardless of what we call it, you will be accessing a part of you that holds all the knowledge and secrets to this life and any and all lifetimes you may have experienced before.

Connecting into this deepest part of you and creatively exploring other lifetimes or aspects of yourself allows you to experience what you need for deep transformative healing and uncovers a treasure trove of limitless potential. In simple terms, it's exploring the 'past' in order to heal the present.

Sometimes just by recognizing or validating what has happened in the past, current life issues are understood and healed instantaneously. This is the power of Quantum Healing; healing on the highest, yet deepest level across all realms of multi-dimensional reality. Keeping in mind that many factors play into why certain things occur in our lives, the potential for a miracle is never promised but also very real, possible and worth a chance.
