

Name of the Laboratory	Significant equipment and software are available	Faculty In-charge
High Voltage Lab	100kV AC/DC test set, Capacitance Divider-100kV, Horn Gap Apparatus, 150kV, 225J Impulse Generator, HV Testing Transformer-100 kV, Oil Tan Delta and Resistance Kit, Rod Gap Apparatus, Sphere Gap Apparatus, testing of insulators, testing of lightning arrestors, cable tester, 100kV oil test kit, string efficiency measurement for string insulators, merz price protection of 1 ϕ transformer	 Dr. (Mrs.) Anamika Yadav

High Voltage 100kV AC DC Test Set

150kV, 225J, 5 Stage Impulse Generator Set

High Voltage 100kV AC DC Test Set Panel

150kV, 225J Impulse Generator Panel

Cable Tester With 40 kV Dc High Voltage Tester

3 Phase TCSC Trainer

40kV DC High Voltage Tester

Horn Gap Apparatus

Oil Tan Delta and Resistance Kit

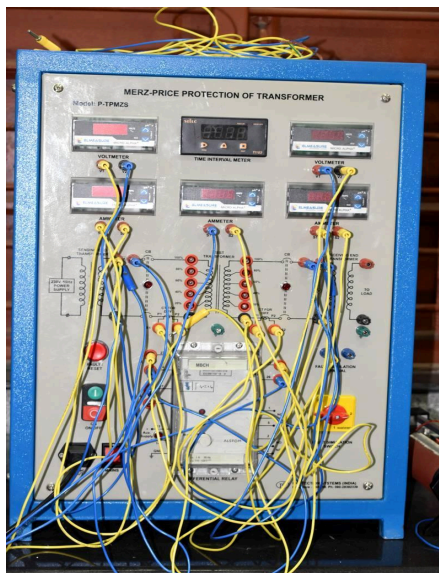

100kV Transformer Oil Testing Kit

3 Phase FACTS Controller

Lightning Arrester And Insulators For Testing

Merz Price Protection Of Transformer P-TPMZS

String Efficiency Measurement For String Insulators
