

Hamilton Fine Arts Center Stage Information

The Hamilton Fine Arts Center is a stand-alone facility, located on Hamilton High School property, located at W220 N6151 Town Line Road, Sussex, WI 53089.

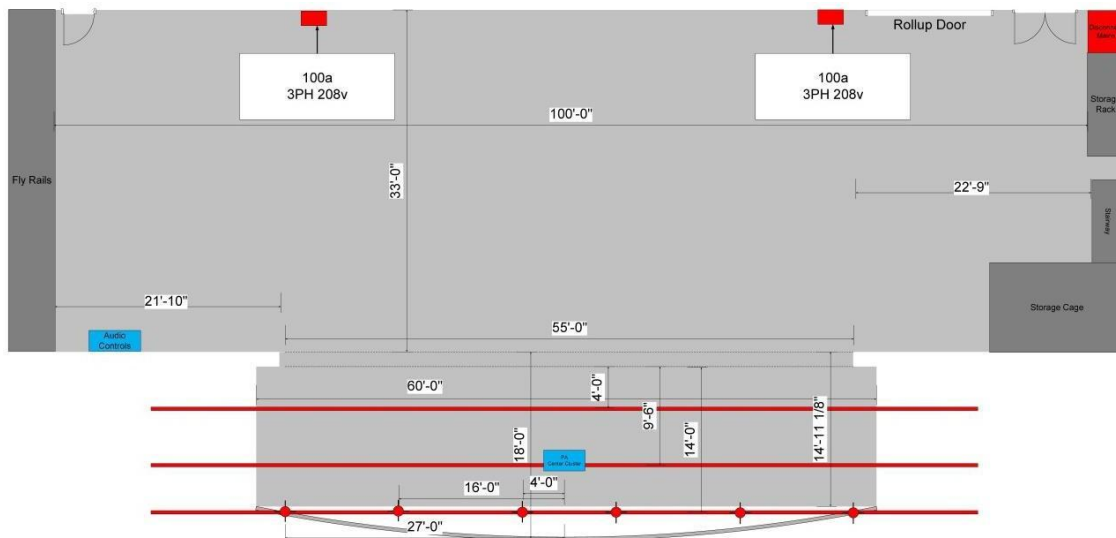

The HFAC is 35,000 square feet including a full-fly stage and orchestra pit. There are 750 seats in the house.

Features:

- Street-level loading dock with garage doors. There is NO ramp or lift.
- Counterweight, hand-operated fly rail system with 4 electrics, 5 batons, 5 band shells and 4 borders. [Batten plot](#) available.
- The stage floor is ¾-inch plywood painted black. Drilling, screwing, nailing or stapling into the stage floor for any reason is not permitted.
- Two non-public, lockable dressing rooms are equipped with chairs, tables, mirrors, 120-volt electrical service, make-up lights, toilets, sinks, and showers. Each dressing room holds a capacity of 18. There are no laundry facilities or steamers available. The dressing rooms are located backstage, a short distance from the stage left entrance.
- The HFAC offers the use of two green room spaces conveniently located backstage between the stage right and stage left doors. One accommodates 75 people. The other accommodates 30 people.

Dimensions:

- The complete stage is 108 feet wide and 33 feet deep.
- The stage opening is 56 feet wide and 24 feet high.
- The grid is 49' high. Weight is available on the upper and lower loading rail.
- The orchestra pit, which also has a removable floor, extends 19 feet beyond the proscenium and is 60 feet wide. The stage floor over the orchestra pit may be removed. Additional fees apply for orchestra pit removal.
- Stage dimension diagram available [here](#).

Soft Goods:

- Grand Curtain (blue velour)
- Mid Curtain (black velour)
- Legs (black velour)
- Borders (black, 12'H X 70'W each)
- Cyclorama (gray, 26'H X 70'W)
- Teasers (10'H by 64'W)

Equipment Available:

- Follow spot with one (1) spotlight
- Automated Projection Screen (16' X 22')
- LCD Projector with remote
- Genie Lift (25' access)
- Yamaha C-7 Concert Grand Piano
- Full [sound inventory](#)
- Full [lighting inventory](#)

Miscellaneous information:

- Lighting/sound designers, light/sound board operators, riggers and stage crew are the responsibility of the user. Crew must carry liability insurance, have previous stage experience, and be familiar with the light console and equipment. If you do not have the appropriate tech crew, the HFAC is able to provide the appropriate crew at an additional charge.
- Gaffer tape and spike tape are the only type of tape allowed in the HFAC. These tapes use an adhesive that does not leave a residue and cleans up quickly. Gaffer tape and spike tape are available for purchase.
- Gaffers tape, spike tape, Gobo patterns, rigging hardware and show-specific gel are not supplied.
- The [lighting house](#) plot must be restored prior to your departure. A \$150 fee will apply if the plot must be restored by Hamilton Fine Arts Center staff.
- A fire curtain is located directly in front of the main curtain. The main curtain line must be clear at all times.
- There are two "green rooms" or group warm up areas available backstage as well as (2) 15-person dressing rooms.
- All groups who intend to use the HFAC must review, understand and follow the [Policies and Procedures](#) for this building.
