INSTRUCTIONS FOR PHOTOGRAPHER

1. Explain the purpose of taking images, what the photo will be used for, where it will be used, how long it will be kept and how the individual can ask for the photo to be removed. Show examples of previous communications. Consent must be obtained in circumstances that ensure that the individual is not coerced in any way and that they understand that they are part of a story that might be disseminated locally and globally. Where needed, use a translator to make this explanation and record their name on the consent form.
2. Fill in the names of each individual giving consent and take a photograph of them with the consent form. Where possible, take group photos.
3. For protection reasons, individuals' names may be changed if their story is shared publicly. Check with each individual if they have a preferred name that they would like us to use in this case. Record this name under 'Pseudonym(s)' on the consent form.
4. Store both the photos and this proof of consent photo(s) within relevant project folder, and put a shortcut to this folder in the central record of all photos ([INSERT THE LINK TO THIS RECORD](#))
