How this ... allows you to run your business completely risk-free

Hi Sean

I liked how you showed your physique near end of video Because you're saying to the audience just look at me so that's why you should listen to me indirectly.

I have an idea that can increase your sales for your custom training plan.

Because you're not making as much money as you could so I think it would be interesting for you to take your business to a much higher level that it is capable of.

interested what I have in mind

A phone call for advice on how to take your business a level higher.

Hi Sean Nalewanyj,

I hope everything's going great.

I attached a free email to hook on your custom training plan.

If you like what you see I'd like to set up a quick call to discuss other ways to improve the value of your business!

If this isn't what you like, I understand. Just let me know so I can remove you off my follow up list.
