IHE Board Document Change Request

Document Change Request information:

Brief Description:	Add "usable" to IHE International Vision Statement
Change Proposal ID:	DCR-nnn <Assigned by board upon receipt>
Change Proposal Status:	Submitted
Submitter's Name(s) and e-mail address(es):	Michael McCoy – mjmccoy@usa.net
Sponsoring Board Member	Self, plus Anna Orlova
Submission Date:	June 20, 2016
Document affected:	IHE International Vision Statement
Rationale for Change: Having information that is not usable does not help clinicians caring for patients, nor patients/individuals seeking relevant information. Too often, the sheer volume of information ("data") becomes just noise, and not useful to any intended reader/recipient.	

*Update IHE International **Vision** as follows:*

Insert word "usable" after "information":

Vision:

Enable seamless and secure access to health information ***that is usable*** whenever and wherever needed.
