

SL: Emmie, your website is missing this one crucial element

Body: Hello Emmie,

I just wanted to reach out and say how much I enjoyed your video on "Plant Based Diet for Beginners | 5 Steps To Start TODAY"! As someone who's also on a dieting journey, I found your tips and insights super helpful.

After exploring your website, I realized that you don't have a newsletter for your website. As someone who has experience with email marketing, I wanted to share with you some of the benefits of having a newsletter for your business. Without a newsletter, you may miss out on valuable opportunities such as increasing traffic, improving customer relationships, and increasing revenue through higher conversion rates.

In addition, a newsletter can help you gain customer insights and retain customers for your website, which I understand is a priority for you

Since I have seen your business from the outside, I would be happy to discuss how my email sequences can help benefit your business further. Perhaps we could even hop on a quick Zoom call to discuss more in-depth?

Best Regards,

Junaid
