

I #standwithUkraine

The West needs to:

- Immediately introduce a "no-fly zone" over Ukraine #sheltertheskies
- Provide maximum military assistance to Ukraine from NATO: anti-aircraft and air defense missiles, Javelins, protective gear, secure communications etc.
- Strengthen sanctions against Putin. This should primarily include sanctions against Russia's Central Bank. State-owned companies Rosatom, Rosneft and Surgutneftegaz must be sanctioned too.
- Disconnect ALL Russian banks from the SWIFT international payment system and provide for effective destruction of Russia's economy.
- Expand the list of individuals subject to personal sanctions.
- Block all Russian airplanes and ships around the world.
- Expel Russia from all international sport events and competitions.
- Ban all Russian media in democratic countries.
- Take a decisive decision to grant Ukraine the EU and NATO membership.
- Establish an international tribunal to prosecute Putin for war crimes and crimes against humanity.
