

Dear Patty,

Thank you for being my mentor. I have learned about running a successful cafe. You showed me how to do most everything that I have done with my parents too but I only work BOH with them. It is different because your work FOH is professional because I am so shy to talk with people in English but when I was working with you it made me feel more comfortable and you said that the guest is not going to bite you. It was fun when you have time we always make a drink or go outside to try another cafe drink too. You are very smart and work so hard it was very teamwork. I feel so lucky to have a nice experience at Kuya's.

Thank you for helping me with my product for my senior project. You always find a time that works for us to work together, come up with an idea and make it happen. I really enjoy working with you so much.

Truly yours,

Ploy Intaradet
