

Tomato Garden Work Holiday Proposal:

Project Description:

Hi all,

I'd like to propose creating a raised tomato (and sweet pepper) garden.

We have 33 tomatoes and 7 sweet pepper plants in trays/flats right now. The tomato varieties are a combination of grape tomatoes, medium sized varieties, and heirloom tomatoes.

The location of the garden will be either at the bottom of the mound facing south towards the parking lot, or in the courtyard. Mason has experience in sloped raised beds.

Benefit to the house:

You get to eat it! Chief Lynn can also cook with grown tomatoes from the garden for dinner.
