SALASIKA ARTICLE TEMPLATE

THE TITLE SHOULD BE CLEAR, CONCISE AND NO MORE THAN 20 WORDS (ALLOWED SUBTITLES IN 15 WORDS)

(Centered, Bold, Times New Roman Font 14, Single spaced)

Author's name [1]; Author's name [2]; Author's name [3]
(Centered, Bold, Times New Roman Font 12, Single Spaced, Without title)

Institutions of each Author's: Department/Schools, Affiliations, Country
(Centered, Times New Roman 12, Single Spaced, Without Position)
Contributor email: abcdefgh@xyz.ac.id
(Centered, times new roman font 12, single spaced, active email)

ABSTRACT
A clear and brief overview of article summary. Written in English, a 150-200 word paragraph mentioning some brief introduction, research objectives, methods used, primary findings and conclusions. If possible, implication of research for policy review, or community sustainability also can be inserted on the abstract. References should be avoided in Abstract. Abstract on Salasika Journal should be written in justified, italics, times new roman font 12, single spaced also include keywords. Please separate the abstract keywords with semicolon (;) not using any words or other symbols. In using keywords for articles in Salasika Journal, please avoid using the concept or terms of research for decreasing redundant words and plagiarism issues. Please type keywords in Justified, Bold, times new roman font 12, single spaced. The keywords content should be written in justified, italics, times new roman font 12 and single spaced.
Keywords: *Please provide 3-5 words that reflecting article content alphabetically*

I. INTRODUCTION

The article should be written in English, not in Bahasa Indonesia. Article length from 6000-8000 words for each, counted from abstract until the references, or approximately 12-15 pages article. Texts, notes and reference are all included on the word counted for article requirement for Salasika Journal further publication, but not included all tables, figures and appendices are supported for article publication. All the contents in the article should be written justified, times new roman font 12 with 1.5 spaced. Introduction should not exceed 20% of the whole article structure. For

supporting better citation used in their article, author(s) recommends applying a reference manager, such as Mendeley, Zotero or any other.

Introduction on article should be containing the specific current social phenomenon and problems which are related to aim and scope of Salasika Journal. Introduction, should be containing a representative and an updated data, completed with the research aim and research strategy. A good introduction should be summarizing hypotheses or contradictory views of phenomenon, and explaining visible gaps between the data, theory, and facts which encourages researcher(s) investigating the issue.

II. METHODS

Research methods and material should be clearly and concisely written. Methods on articles should be providing a research step (based on chosen methodology), such as materials, data, computer tools, research protocol, and instruments. Methods should be pointing out how the research was conducted, clearly from the beginning until it is finished in detail. Methods should not exceed 15% of the whole article structure. A citation in the research method should be taking notice of APA style, and it recommends using a reference manager.

III. RESULTS AND DISCUSSION

Result and discussion should cover 60% of the manuscript.

1. Results

Author(s) must explain the essential findings prior to discussion. The analysis on research findings must be clear, easy to read and understand commonly, informative, comprehensive, and not too specific using theoretical or conceptual language (please describe if any scientific reasons, and adjusted into the common knowledge). Author(s) must be explaining their research

findings in a specific sub-section for strengthening research findings with evidence from data collected or instruments and a fact. The finding results summarizes collected data with statistical data or informant quotes used. Author(s) should be mentioning all relevant results.

If the findings provided a table, graph and equation, please make sure if all those things are not too big and too large. If the findings are using table, graph and quotes together, or combination of three/four ways of data collection, please select the primary findings and not provide them all together in a subsection of findings.

The style of table in Salasika Journal is presented in Table.1. Table in the article should not contain a vertical line in uprights. Horizontal lines are only placed on the table head and tail.

Table 1. Please put table name in brief and shortly

(centered, bold for table title, times new roman 12, single spaced)

Variables	Indonesia		Malaysia		Singapore		Total	
	Mean	Standard dev.	Mean	Standard dev	Mean	Standard dev.	Mean	Standard dev.

The style of graph in Salasika Journal is presented in Chart 1. A graph/picture/chart in an article should be given further details or information in the head of the graph/pictures/chart and a source below the graph or a picture.

Chart 1. Please write the graph/picture name in details

(centered, bold for graph/picture title, times new roman12, single spaced)

Source: Put the source completely, with year

(centered, bold and italics for table sources, times new romans 10, single spaced)

The style of mathematical equations or formulation in Salasika Journal are presented in List 1. A mathematical equation or formulation in an article should be giving further detail or information in the head of graph/pictures and a source below the list of mathematical equations or formulations. For minimizing error, an author could use an application, named equation editor in Microsoft Word.

List 1. Please describe a name of mathematic equation or formulation

(centered, bold for the name of equation or formulation, times new roman 12, single spaced)

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

Source: Put the source completely, with year

(centered, bold and italics for table sources, times new romans 10, single spaced)

2. Discussion

In this section, the most important things on the research parts will be considered for publication in Salasika Journal. A discussion part intended to interpret the research findings in accordance with any theory/theories which were chosen as an analysis tool(s). Discussion has to be enriched with previous studies which have been published in scientific publications for showing the supportive ideas or contradictory ideas of the author(s). A conceptual framework should be written clearly to maximize an appropriate discussion.

Any reference and citation which will be used on discussion should be following an APA 7th style. All citations in the article must appear in the reference list and cited in discussion text.

IV. CONCLUSION

A conclusion(s) must be discussed comprehensively, critically as the evaluation of article the ending points. Conclusion is the final part of the essential research findings and discussion.

V. REFERENCES

Salasika Journal uses APA 7th referencing style. The references should be in alphabetical order. Use Times New Roman font 12, single spaced. The minimum requirement of the amount of references is 20 references and 30% taken from reputable international journals. It is preferable to have minimum 80% academic journals as the references published in the last 5 years except for main references of particular theories. It is suggested to apply reference software managers like Mendeley, Zotero, or any other.
