## Personalize Your Home With Vinyl Wall Art

Our homes are a reflection of who we are. Walking through your home, guests should be able to get a sense of who you are, likes and dislikes, and the different personalities of each member of your family. Each room of every home is decorated in ways that we like, that make the room feel a certain way and reflect our own unique style. Typically we put much thought into each room in our home when we first move in or after a major renovation, over time the decor may get old - tastes change, trends change - and be due for a change. There are many things that can be done to a room to refresh and update, but one thing that is quick, easy and cost-effective is adding personalized vinyl wall art.

No matter what type of colors or theme is chosen, there will be a vinyl wall decal available or one that can be made that will match perfectly with your room. Countless wall stickers have already been designed (just add your own personalization) or get ideas for your own room by

looking at thousands of premade designs. If you can't find something just perfect for your room, a designer can work with you to create something unique.

A popular vinyl wall art idea, that is used in many homes, is to use wall quotes. The quotes will come the same way the wall stickers do. The only difference is that the wall decal will be made up entirely of words. By using wall quotes, the personalization of a home will be taken to the next level. Special sayings or phrases can be placed throughout the home to give off a certain feel for the room. A bedroom can have a love quote. For a living room, add a family quote. In the kitchen perhaps a quote about great friends gathering together. Try to use quotes that are personal to your family, ones that are often said, or inspirational quotes that you would like to be reminded of through the years.

Another often overlooked idea that adds a lot of originality to a home is to purchase a custom wall quote. You can type your own text, choose font, color, size and more - then preview what your quote will look like before you place an order. Some of the best ideas are using something your child or grandchild said that makes you smile. A favorite saying that sticks with you through the years from your grandfather, mother, favorite aunt... or anyone special in your life. You'll treasure this memory on the wall for many, many years - and it's what helps make a house your own home.
