

DIGISTARS®

MAKE-A-MOVIE

WORKSHOP

Innovative Movie Making Programs For Students
Turn Any Unit Of Study Into A Fun And Compelling
Movie Project.

If there's one thing we've learned from our current experiment in virtual and hybrid education it is that **the traditional methods of teaching and assessing just aren't cutting it anymore.**

**ESPECIALLY WITH ELEMENTARY AND MIDDLE
SCHOOL STUDENTS.**

It's past time to innovate education to make it work for today's students.

The bottom line is... **the 'usual' teaching strategies are not working as well in remote, hybrid, or even in-person**

learning settings. The world is changing; it's time to update the educational landscape to better prepare today's students to become tomorrow's adults.

And we have to do it in a way that **doesn't overwhelm teachers, overburden school districts, or leave economically disadvantaged populations behind.**

WHAT'S THE ANSWER?

We Can Resist Today's Challenges To Education,
Or We Can Embrace Our New Reality And Make
It Better Than The Past.

Let's Give Teachers The Tools They Need For 21st
Century Learning.

This Is How We Enhance The Digital Learning
Curve.

Imagine...

Remote Learning With Engaged Students Developing Real-World Skills.

Teachers Who Feel Supported With Training And Resources.

Tangible Evidence Of Learning Through Student-Made Movies.

IT'S MORE THAN STEM; IT'S STEAM!

There's never been **a better – or more cost-effective–time** to pivot teachers into more engaging and effective teaching patterns.

The Key Is Providing Our Students With
INSTRUCTION That Engages, Enriches, And
Enhances Their Experience, And That Is
Exactly What Digistars® Programs Are
Designed To Do...

INTRODUCING...

The Digistars® Make-a-Movie Workshop Curriculum

These curriculum packages are designed to work with students at home or in the classroom. We provide today's elementary and middle school-age digital learners with 21st century academic, professional and creative skills through the production of their own movies to showcase new knowledge.

Choose From 3 Movie-Making Curriculum Packages:

STOP MOTION

DOCUMENTARY

LIVE-ACTION

Curriculum Packages Include Guided Lessons, Instructional Videos, Sample Movies, And Downloadable Worksheets As Well As Self-Paced Parent-Teacher Trainings.

What's Included In Digistars® Make-A-Movie Workshop Curriculum Packages...

Curriculum Instruction Guide

Resources teachers need to deliver engaging and innovative programs to their students whether in-person, remotely, or some hybrid experience.

Student Facing Materials

Proprietary instructional videos interspersed with student-made examples to inspire and motivate.

Student Resources & Handouts

Worksheets to accelerate student learning and assess progress.

Private Facebook Group For Teachers

Support and answers for teaching movie-making skills to kids.

Moving-Making Course Playbook

10 Lesson Plans In Each Curriculum Package. Courses can be taught in 7-15 hours of time, adjustable for the teacher's needs.

Engaging Video Series

Bring innovative educational strategies into the classroom that allow students to express their creativity while having fun and staying engaged.

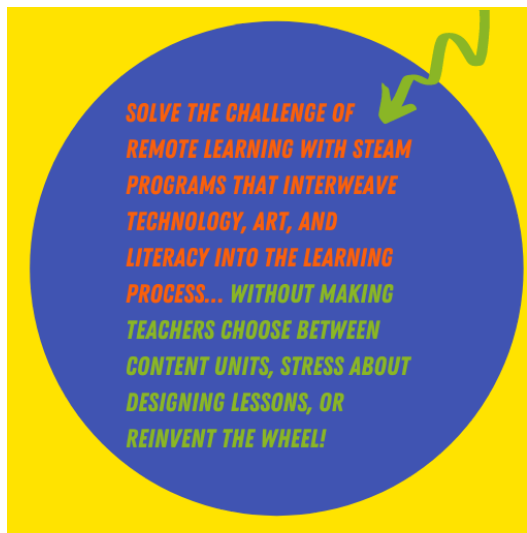

Movie-Making Workbook

Supercharge student engagement with fun and desirable learning activities that culminate in demonstrations of real scholarship.

Digital Storytelling Teacher

Support Forum

Empower teachers to integrate creativity and tech into the learning environment to enhance core content without sacrificing scheduled academic units.

These programs have been tested and honed with thousands of students since 2010 using these very same guides and visual aides.

There's no guesswork as the guides contain lesson plans, topics and hands-on activities complete with engagement prompts and responses, handouts, and instructional videos.

Picture This...

First graders making stop motion animations about the Cretaceous period.

Third graders making documentary movies about their state's history.

Fifth graders making live action movies that use green screen technology to set their movies in ancient Egypt so they can be archaeologists exploring King Tut's tomb.

Check out this documentary made by a 12-year old 7th grader!

The learning opportunities with digital storytelling are endless.

After the filling the form and when they submit they will go to the booking page:

Schedule Your Call With Our Customer Success Team Below:

Wait one moment while the calendar loads.

A screenshot of a web form titled "Pick a date and time". The form has a dark grey background. At the top left, it says "Duration: 30 minutes" and "Your time zone: Please select". At the top right, there is a link "Change selection" with a dropdown arrow. In the center, there is a white box titled "Your time zone" with the text "All times will be displayed according to your time zone:". Below this, there are two dropdown menus: the first is labeled "Philippines" and the second is labeled "Manila (GMT+8:00)". At the bottom right of the white box is a pink button labeled "Continue".
