0 2	03/04/02	Digit number Smallest and Largest number Indian system place value chart III IIII	The survival to write a short from the position of the blocks in the plane where chart. William the survival from the position of the blocks in the plane where the survival from the position of the blocks in the plane where the survival from the position of the blocks in the plane where the survival from the blocks in the block in	Which is the smallest four digit number Which is the largest 6 digit number Write the table 2 to 15 Lean
3	05/04/02 5	Exercise 1.1 Full in the blanks Examples Write the given number in the Indian system Solution	Write the number formed from the position of the blocks in the place value chart, Vrig. the number name too. I have been successful the place value chart, Vrig. The number rame too. I have been successful the place value chart, Vrig. The number is written as \$6,2,33.1 it is read as fee labb stay-two thousand three hundred thrieren. FIVE AND SIX-DIGIT NUMBERS ON THE ABACUS 1. 12,543 TTh Th H T O The number represented is read as twelve thousand five hundred forty three. 2. 5,30,104 L TTh Th H T O The number represented is read as twelve thousand for hundred forty three. EXERCISE 1.1 EXERCISE 1.1 STOCK OF THE PROPERTY O	Write the given number in the Indian system A.23,517 B.67,843 C.9,35,078 D.2,35,689
0 4	07/04/02 5	Sports day		Write the given number in the Indian system A.23,517 B.67,843 C.9,35,078 D.2,35,689

05	08/04/02 5	Story of Number system and Zero	Where learn that the only human beings in the Stone Age period counted animals and other everylay objects using fally marks. As excitation advanced in various parts of the world, the need to develop a number system of the state of the world, the need to develop a number system. Be the Agency Creditation and the halybotant people in the world to develop a counting system. Be kayen Creditation and the halybotant people in the world to develop a counting system. Be kayen Creditation and the halybotant people in the world to develop a counting system. Be kayen Creditation and the halybotant people in the world to develop a counting system. Many of the state	Q.1In which Indian manuscript is the invention of zero mentioned? Q.2Who developed the counting number?
	09/04/02 5	Maths Activity	Plant on OnePhoto Application of disp	Write the odd and even number 1to 100
	11/04/02 5	Maths Activity	Bart an Diambar and Action of the	Write the odd and even number 1to 100
	12/04)02 5	Exercise 1.1 International system Exe	2. Represent the following numbers on the abacuts. 2. 23.517 Th 13 H T O 1. Th TH T O 2. Write the number earnes for the following. a c7451 5. Write the number earnes for the following. b 7.00.056 C 9.35.078 4. Write the following in numbers. a forth one of the following in numbers. b forth one of the following in numbers. c the lable and thousand fore hundred and two d, and lable seven thousand fore hundred and two d, and lable seven thousand two hundred and seven SYSTEMS OF NUMERATION Let us learn about two important systems of numeration the Indian system and the labelland system. Indian System of Numeration This yearn of numeration is also called the Hindu-Arabic system of numeration. In this Shell of the Carry the right is called the lable. April 12, 20725 or 12216	Write the given number in the international system 418723 202124 628702
	15/04/25	Sports day		Write the given number in the international system 418723 202124 628702

22/04/02 5	Exercise 1.5	NUMBER FORMATION To form the greatest number using any given digits, write the digits in the descending order from the extreme left. To form the smallest number using any given digits, write the digits in the accending order from the extreme left. I samples. I Form the greatest number using the digits 1, 4, 7, 3, and 9. Descending order of the digits 9, 7, 4, 3, 1 So, the greatest number that can be formed using these digits is 97,431. Ascending order of the digits 0, 1, 2, 3, 6 However, a number cannot start with 0, After writing the digits in ascending order, simply interchange 0 with the digits 1, 6, 0, 2, and 3. So, the smallest number using the digits 1, 6, 0, 2, and 3. EXERCISE 1.5 EXERCISE 1.5 EXERCISE 1.5 So, the smallest number that can be formed using these digits in ascending order, simply interchange 0 with the digits the follows. Note: Do not repeat the digits.) a. 4, 7, 1, 2 smallest number largest numbers largest number largest number largest number largest number largest number largest number 2. 6, 2, 3, 8 smallest number largest four digit number possible using the given digits. (Note: To may repeat the digits.) a. 2, 9, 1 a. 2, 9, 1 and 1, 1, 2, 3, 4 and 1, 2, 3, 4 and 2, 3, 4 and 3, 4 and 4,	Arrange the given number in the descending order A.5678,8907,4567 B.1600,1610,1060,16 00 C.9,102,8643,768
23/04/02 5	Video Day Exercise 1.5		Write the largest and smallest number in the given digit A.4,7,1,2 B.0,7,6,1 C.6,2,3,8
