Scylla is the head of the clan who was married three times. She was married to two humans and one demon. Her rank among the demon world is unknown due to the suzuka family being "Forgotten family to both humans and demons alike. No one knows how strong they are and Scylla wants to keep it that way

She has three daughters. Karma (first born) Natasha(second born) and Nataly (the baby]

Aizen got Scylla pregnant after her husband (who was Aizen's friend) was killed (Aizen's orders) because he was a demon. Aizen wanted nothing to do with Nataly until now but the people in the clans he hired doesn't know he's trying to be a father to a demon half breed

They have been around four thousands of years and haunted for years to come. Some have come to coexist with humans, others have come to fear them and others killed them as years rained on
