🎓 December sales rep highlights:

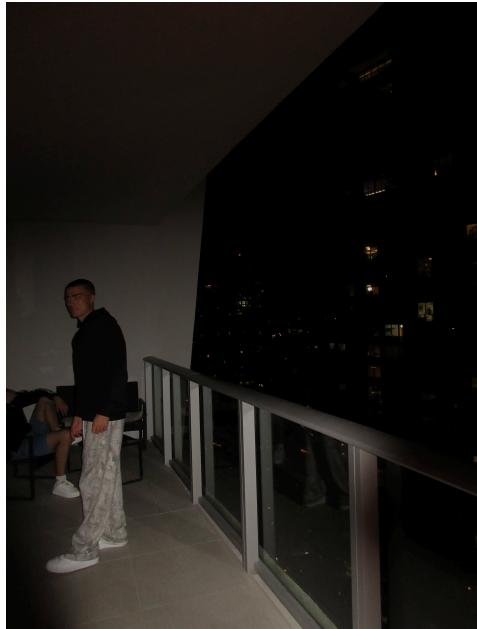

Jabulani “Jubba” Aduwo:

Jubba joined Skyline earning around **\$4,000–\$5,000 per month** in commissions. After joining Sky Ops and becoming the **top setter on our offer**, he later transitioned into an **operator role**. During his time as a setter, he earned nearly **\$20,000 in a single month as a setter (numbers unheard of in the space)** and continues to be presented with **new opportunities for growth** within Skyline.

Jack Andrews

Jack came into Skyline with absolutely no closing experience,

Since joining us just **2 months ago**, he's quickly risen to the top. Jack in just 1 ½ months has generated just under **\$200,000 in cash collected** and continues to be presented new opportunities for growth and income

Final Word

We're forecasting 100-200+ daily inbound leads per setter, and 5-10+ calendar calls daily per closer across current and upcoming campaigns. If you're ready to step into a real opportunity, backed by a proven team and brand - now's the time to apply!
