Shortcut in the Search Bar:	Google Advanced Search Page:

Try a **basic "AND"** search on your topic….remember to only use the *most important terms*!

Google teens drugs	all these words: teens drugs

Try **limiting by domain**. You can type *site:.edu, .org, or .gov* after your search terms or use the advanced search page to limit by site or domain.

Google teens drugs site:.edu	site or domain: .edu

Try **limiting by date.** You can click on "Tools" and then "Anytime" and select *past year* or a *custom date range*.

Settings Tools → Any time ▼	last update: past year

Try an **exact phrase search** on the advanced search page or lock phrases together in *quotes* using the search box.

Google teens "drug abuse"	this exact word or phrase: drug abuse

Try searching for **alternative terms** by going to the advanced search page and typing your terms in the *"Any of these words" box*. You can also simply but the word *OR* in between similar terms.

Google teen OR adolescent OR youth "drug abuse"	any of these words: teen adolescent youth

Try **removing unrelated results** by going to the advanced search page and using the *"None of these words"* box. You can also put a *- sign* touching the words you are trying to get rid of.

Google teen "drug use" -adult	none of these words: adult
