

BERLIN M.A.P. RULES

- Your part must be 1920 x 1080 resolution and 1080p HD quality
- Discord is required to participate or be a backup and there is a Discord server you must join upon being accepted into the MAP
- This MAP is not first-come-first-served and requires frame-by-frame animation experience as well as examples on your channel
- There are no set character designs for this MAP, so feel free to use your own. However, make sure the characters are recognizable and use the Warriors wiki descriptions as reference. Don't change aspects like fur color, eye color, and general markings
- Don't add a watermark to your part, I will do this in post (includes program watermarks like flipaclip)
- You must cut your own audio and there are timestamps in the script for each part to help you
- One part per person
- Deadlines are available in the Discord server
- You MUST have some way to send me the high-definition original MP4 or AVI file of your finished part. I recommend using sendspace, Google Drive, or emailing it to me (vaqqee@gmail.com)
- Feel free to include more than one part in your comment that you'd be interested in having!
- Please add a few extra frames to the beginning and end of your part to make stitching them together easier
- If you've read all the rules and want a part or backup slot, put the phrase "Theatre Is Evil" somewhere in your comment

Discord server: <https://discord.gg/X6GhAZZTKq>
(do not join until you are approved for a part)
