

JUST AS A MOTHER

A D
Just as a mother cannot
A
Forget the child she has bore
E
Our God will not forget us
A D
Our bodies come from her bone
A
Her likeness shows in our love
E
Our God will not forget us

Chorus

A D
Even in our bleakest hour
A Bm
The mother's love remains
A D
Even when we turn our eyes
A E
The mother's gaze stays

She cannot ignore our pain
Her comfort rushes in
Our God will not forget us

She holds us close to her chest
And sings her song in our ear
Our God will not forget us

Chorus

(Ending)
A DA
How deep the mother's love for us
E
How vast beyond all measure
A D A
That she would give herself to us
E A
And ask nothing in return
