

25-26 INCLUSION & CO-TEACHING TRANSFORMATION CYCLE Timeline

Empower Learning: Reach EVERY Student EVERYDAY

Purpose Statement: This framework aims to facilitate a systems approach for transformative change on inclusion and co-teaching. We capitalize on building the capacity of every educator (i.e. in the district, building, and classroom levels) and the partnership of GRREC consultants and member districts to provide a supportive context for all educators to sustain the intricate yet important work on inclusion and co-teaching.

Teaming System: We know that one-and-done PDs are different from how we truly transform our practices as educators. Therefore, we highly promote the systems approach where teams of growth-mindset members work collaboratively to learn, implement, and problem-solve.

→ **Leadership Team:** District and Building Gen Ed and SpEd Representatives

→ **Teacher Team:** Special Education and his/her General Education Co-teacher AND A Gen Ed Teacher without a Co-teacher

EXPLORATION PHASE

For LEADERSHIP TEAM (LT): Building LT Capacity to Establish a Supportive Context
