

You will attend Physical Education every other day. We follow an “A/B” schedule.

- Look at your schedule on Talos and locate the **COURSE ID** in the second column. Here is an example:

3	PPS81QB	PHYSICAL EDUCATION 9TH GRADE	4	--T--R--	Rebeca Morel Wernham	380
---	---------	------------------------------	---	----------	----------------------	-----

- If your COURSE ID ends in “B” you will attend only on “B” days. If your COURSE ID ends in “A”, you will attend only on “A” days.

The student above has the course ID PPS81QB, thus will attend on B days.

- You will check the [2023-2024 Stuy calendar](#) on the School website under the “Parents” tab to note whether the school day is an “A” day or a “B” day. This information is also on the Weekly Calendar that will posted on the school website, and emailed to students from the Student Union.
- Today is an “A” day. If you are scheduled for a “B” PhysEd class, then you go to your LAB course that is also scheduled the same period on your program.
- Similarly, on a “B” day, if you are scheduled for an “A” PhysEd class, then you go to your LAB course that is scheduled that period on your program that day.
