

I am working on a non-commercial fan project based on Ace Attorney, I need an artist to create some images for six different characters.

Most of the artwork already exists in different formats but I need it to be in the Original Ace Attorney 2D art style.

What I need is a sprite sheet for each character that I can use to create animated GIF's. Here are some examples of what I am looking for:

<https://www.court-records.net/sheets/4sheet-Trucy.gif>

<https://www.court-records.net/sheets/4sheet-Apollo.gif>

<https://www.court-records.net/sheets/DSsheet-varan.gif>

The art needs to be in the same style as these examples but I won't need as many images - just a few slightly different poses for each character. Only the top half of each character is required.

The characters I need are: Clay, Athena, Bucky, Gaspen, Uendo and Geiru. I have a list of all the different poses that I need.
