THINK BABY

CALIFORNIA BABY

BANANA BOAT KIDS

## Sunscreen for babies

- **For babies younger than 6 months:** Use sunscreen on small areas of the body, such as the face, if protective clothing and shade are not available.
- **For babies older than 6 months:** Apply to all areas of the body, but be careful around the eyes. If your baby rubs sunscreen into their eyes, wipe their eyes and hands clean with a damp cloth. If the sunscreen irritates their skin, try a different brand or sunscreen with titanium dioxide or zinc oxide. If a rash develops, talk with your child's doctor.
