

FEDERATION OF AFRICAN MEDICAL STUDENTS ASSOCIATION STANDING COMMITTEE ON PROFESSIONAL EXCHANGE

CALL FOR FAMSA SCOPE HEALTH EDUCATIVE SCHOOL PRINCIPAL

Background

The Federation of African Medical Students' Associations (FAMSA) is an independent, non-political federation of medical students associations in Africa. FAMSA is a project-oriented medical student body, recognized by the WHO & the AU as the official international forum of African Medical Students

FAMSA-SCOPE is one of the five(5) standing committees(a link has been shared in case you wish to learn more about it) and is responsible for drawing up detailed programs for the health educative school covering elective postings and activities, information exchange conferences, and study tours.

FAMSA HEALTH EDUCATIVE SCHOOL PRINCIPAL

FAMSA Health Educative School is a division of FAMSA-SCOPE that works to enhance inter MSA relationships and collaboration.

The objectives of the FAMSA Health Educative School are:

- To strengthen the relationship between Medical Students Associations\.
- To expose medical students to appreciate students to different variations of medical education in Africa as well other continents.
- To create a horizon of opportunities for medical students across AFRICA
- To enable medical students to appreciate the different angles, enormity, and similarities of health problems in different parts of Africa and the different approaches to those problems.
- To enable the students to learn more about Africa, her people, her customs, her land, and aspirations to provide medical students of Africa with more fruitful, beneficial, and educative electives since the health problems in Africa are generally similar.
- To provide opportunities for medical students to learn about other continents, socio-economic and cultural conditions that help inform, learn and improve Africa's health care standards.

The FAMSA Health Educative School activities, therefore, include clinical clerkship elective postings or elective postings in Preventive and Social (Community) Medicine, and in either case, with sessions of activities information exchange conferences and study tours.

FAMSA-SCOPE HEALTH EDUCATIVE PRINCIPAL ROLES

- Shall be immediate of the coordinator clerkship program activities
- Will work with SCOPE chair to facilitate the exchange and other Health educative School programs
