Colorado Cultural Resources Survey
Historic Cultural Landscapes

This form, modeled on the Historic American Landscapes Survey (HALS) Short Format History Template, is intended to aid in documenting the identification and evaluation of many types of historical landscapes in Colorado, including historic archaeological landscapes. For guidance on completing this form and the required accompanying documentation (maps, photos), please refer to the instructions found at HYPERLINK "http://www.historycolorado.org/archaeologists/cultural-resource-forms" www.historycolorado.org/archaeologists/cultural-resource-forms and to the *Colorado Cultural Resources Survey Manual* at HYPERLINK "http://www.historycolorado.org/archaeologists/survey-manual" www.historycolorado.org/archaeologists/survey-manual. Prehistoric archaeological landscapes should still be recorded on the *OAHP Management Data Form* (#1400) and the appropriate component forms. Historic linear landscape features (ditches, roads, railroads, etc. in whole or part) documented independently of the surrounding landscape context during archaeological surveys should still be recorded on the *OAHP Management Data Form* (#1400), accompanied by the *OAHP Linear Component Form* (#1418). Post-World War II Subdivisions should be recorded on OAHP form #1403 b.
