

DPS Online Registration for 2025-2026 opens Monday, July 28th!

[Please click here for detailed DPS online registration information.](#)

Once a family is enrolled – or accepted – into a DPS school, the next step is registering with their school. This is the annual process of providing and updating student and family information on file, including adding parent/guardian contact information, emergency contacts, health information and more.

Registering online is convenient, saves time, and ensures that all information provided is correctly uploaded into our system. **All parents/guardians are encouraged to complete online registration by August 7, 2025.**

How do I get started?

1. If you already have a Parent Portal account, log in now to make sure it is active. Then go to No. 3 for next steps.
2. **To create your Parent Portal account:**
 - Navigate to the [Parent Portal](#) and click on “Create a Parent account” below the "Login to Parent or Student Portal" button.
 - Fill out the form on the next screen. You will need the ID number of one of your students in order to create a Parent Portal account. If you do not know your student’s ID, go to [Student ID Retrieval](#) or contact your student’s current DPS school.
 - Once the form is completed, click “Submit”. You will be prompted to select your username and password; click “Submit”.
 - An activation email will be sent to the email used to create your account. Please click the link in the email in order to activate your account. Once completed, you will receive another email informing you that your account is now active (this may take up to 15 minutes).
3. **To submit your online registration:**
 - [Click here for step by step guidance to Online Registration](#)
 - [Click here to choose the guide in a different language](#)
 - Note: If you don’t see each of your enrolled students listed, please contact your school before continuing at 720-424-6500. If you still have a child on a waitlist at a DPS school **PLEASE do not** complete online registration until all of your children have been accepted into their DPS school and are listed on your Parent Portal account. Once you submit registration for one student you cannot go back into the online registration and complete it for another student. **ALL STUDENTS IN THE SAME HOUSEHOLD MUST HAVE REGISTRATION COMPLETED AT THE SAME TIME!**

- Visit campus.dpsk12.org and sign in using your Parent Portal user name and password. Click “**See all Apps**” at the top of the page, then select “**More**” on the left-hand side and click “**Online Registration**”. Click “**Online Registration**” again on the bottom right corner of the Home page. This may look different on your phone.
- Some changes cannot be completed online and will require you to take documentation to your school. If you receive this prompt, please contact your school to provide needed documents (this includes changes to names or guardians).
- You must complete registration yearly for every student enrolled in a DPS school.

SKCEE will be hosting IN PERSON registration days on Thursday August 7th and Friday August 8th. Additional information will be sent to you in June. If you are having issues with online registration we will have tables and chrome books set up with someone able to assist you. This will also be your opportunity to turn in **all required documents** to ensure that your child can start school on the first day, including the additional paper registration forms required for ECE.
