

# JAMES WEBB TELESCOPE

-Webb will be the largest, most powerful and complex space telescope ever built and launched into space. It will fundamentally alter our understanding of the universe. NASA

Source: NASA

Twenty two artists were selected nationwide to attend the James Webb Space Telescope Artist Event at NASA's Goddard Space Flight Center in Greenbelt, Md. This gallery shows their impressions of the Webb Telescope and its mission. NASA

-Art and science are very close since one complements the other. Imagination takes you beyond your limits and your creativity when doing it shows that it is possible. Ivette-Me

THANK YOU SO MUCH!
