

**Office of the Greater Appalachia Assembly**  
**Speaker**

Good Afternoon,

When longtime Speaker /u/KushGator announced his retirement, I felt a twinge in my heart. He was an exceptional leader, passing legislation that has bettered the lives of everyone in our great state. I am saddened to see them leave, but I know he will be around to offer us advice.

I love working directly for the people of Greater Appalachia. I'm honored to assume this role and I'm glad my fellow Democrats support me. I hope the Coalition Assembly members decide to show up to work next week. Voting is the most important thing we do and them not voting in this election is of grave concern.

I look forward to being your Speaker during this term and guiding the legislature on a path that will benefit us all.
