

Hi! It's your friend in tutoring, Joanne Kaminski. Here's a letter from me to you that I can't put out on a website because this offer is that special. Also, this letter is only for those of you who do 1:1 tutoring.

Many video calling platforms have been built for business meetings. They are obviously not built with teachers and tutors in mind. **Pencil Spaces is built for tutors.** It has 10,000+ built-in resources. It tells you when your students aren't paying attention. It just works!

Some of you still feel like Zoom is the best option for teaching online? It's what everyone used when the world went virtual. Have you ever stopped to ask — *is this really the best we can do?*

If you're like most online tutors, you've fought with Zoom's clunky interface. The share screen bar? Always in the way. The constant updates? Making simple tasks more complicated. And now, **Zoom is forcing you into a \$18.49 a month plan just to use a**

whiteboard — a whiteboard that wasn't even designed for tutors in the first place!

You are wasting precious time navigating Zoom's limitations:

- ♦ Moving that annoying toolbar *again*.
- ♦ Giving students permission just to control the mouse.
- ♦ Clicking through multiple tabs just to pull up the tools you need.
- ♦ Losing momentum in a lesson because the platform wasn't built with you in mind.

But let's be real — switching platforms isn't something you do lightly. You've built systems that work *well enough* in Zoom. But at what cost? How much time, energy, and frustration would you save if there was a platform designed specifically for online teaching?

That's exactly why I gave Pencil Spaces a shot. And let me tell you — this is the tool I *wish* had existed years ago.

- ✓ No more juggling tabs — everything you need, from PDFs to YouTube videos, is in one place.
- ✓ Students have their own mouse — no more permission issues, just smooth interaction.
- ✓ An infinity board — where you can write, organize, and store everything in one space.
- ✓ Students can access their work anytime — without confusion about where to go.
- ✓ Over 10,000 teaching resources built-in — from interactive tools to subject-specific materials that make lessons more engaging.

The moment you try it, you'll see why tutors are making the switch. It's faster, smoother, and actually built for teaching.

Why Listen to Me?

Hi, I'm Joanne Kaminski, and **I've been tutoring online since 2010** — long before it became the norm. In fact, I started with Skype, back when the idea of virtual tutoring was still new. My belief was simple: *If I could share my screen and my student could read the words, I could teach them how to become a better reader.* And it worked.

I've always been selective about the tools I use because I know how much they impact both student success and tutor efficiency. That's why I swore I'd never switch platforms unless there was something significantly better — and that's exactly what happened when I found Pencil Spaces. The ability to share the mouse and create interactive lessons made it a game-changer.

But here's the thing — technology keeps evolving, and so should we.

With over 1.75 million views on YouTube and 15,000 members in my private Facebook Group, *The Ultimate Support Group for Online Tutors*, I've spent years helping tutors navigate the online space, grow their businesses, and reach students worldwide instead of just in their local area.

I still tutor 15 to 20 hours a week myself because I believe in staying hands-on with the strategies I teach.

I've helped over 1,000 tutors build an online presence, and I know firsthand that the right platform can make all the difference. That's why when I say there's a tool that beats Zoom for online tutoring, I mean it.

👉 I don't just teach this — I live it! And I'm here to help you create a seamless, interactive, and efficient tutoring experience for both you and your students.

Why Pencil Spaces is the Trusted Choice for Online Tutors

When choosing a platform for online tutoring, credibility matters. You need a tool that's not just functional but proven, trusted, and built for educators like you.

That's exactly what Pencil Spaces delivers.

- ✓ Award-Winning & Globally Recognized – This isn't just another video conferencing tool; it's an award-winning platform designed specifically for teaching and learning.

- ✓ Full Money-Back Guarantee – Not impressed? Get a full refund, no questions asked.
- ✓ 100% Compliance & Security – The most compliant platform in the world (COPPA, FERPA, HIPAA, SOC2, GDPR — you name it, they've got it).

FAQs

Is this \$7 deal forever? Yes! You get to keep the \$7 deal as long as you're a subscriber.

Does it work in China? Many people use Pencil Spaces in China over VPN.

Can I use this for group tutoring? No. This is for 1:1 tutoring only. I'm working with the Pencil Spaces team for a special offer for group tutoring. Stay tuned.

How does it compare to other platforms? It's WAY better, and this is by far the best price out there.

What does this special tier not have? It does not have apps, collaborative browsing, cloud recording, AI, but honestly, it has so much more than Zoom that for the price of \$7 it's a total steal. However, the Pencil Spaces team has kindly agreed to offer you several advanced capabilities for the next 30 days including web viewers, apps, and a few more goodies.

Can I share username and password? No. And please do not do that. You will be flagged and you will also be removed from my community. We are looking for honest, upstanding, high integrity people to be part of my community. Without high integrity people, I can't procure such very special offers that Pencil Spaces has agreed to do only for me. Just so there is no misunderstanding, the Pencil Spaces team is capping usage to 100 hours of 1:1 instruction per month which is equivalent to 200 user hours. Unused hours do not roll over from one month to the next.

Everything You Need — For Just \$7/month or \$77/year!

For a limited time, get all the tools you need to teach online — without the headaches of Zoom — at an unbeatable price:

- ✓ Crystal-Clear 1:1 Video Calling – Connect with students seamlessly.
- ✓ Interactive Whiteboard – All your resources in one place, no extra tabs needed.
- ✓ Student Attention Tracker – See when students are engaged (or distracted).
- ✓ 10,000+ Teaching Resources – Ready-to-use tools tailored for online educators.
- ✓ Lesson Recording – Never lose track of a session — record on your computer and revisit anytime.

All for just \$7/month!

That's cheaper than coffee and a croissant!
