

Subject:

Mark:

Following is a space to write some notes about your exam. You don't necessarily need to write about every single question. Only include the ones which, for you, are noteworthy. OR, you may like to group questions together. If there were four questions on a single topic and you're happy with them, put them together and make a single note on them. Talk to your teacher about how to make this work for you.

Questions Answered well:

Question	Type of Question	What will studying for this before the HSC look like for me?

Questions I did ok in, but would like to do a little better:

Question	Type of Question	What will studying for this before the HSC look like for me?

Questions I did not answer well and would like to improve in before the HSC:

Question	Type of Question	What will studying for this before the HSC look like for me?

--	--	--

When you look back at your reflections of the questions in the trial exam, are there particular things you notice?

1. Are there particular content areas you've achieved better or not so well in?

--

2. Are there particular types of questions you've achieved better or not so well in?

--

3. Are there some exam skills you think you want to improve on? Why? (e.g. knowing what certain questions are asking you to do, writing essays, writing succinctly for short answer questions)

--

From your answers to questions 1-3 above, what would you like to do in the coming weeks to see improvement where you think it's helpful for you?
