

Group 2 - Green Street - Critical Ideas

| CRITICAL IDEAS LIST | NOTES |
|--|-------|
| Funding ! Everyone has talked about this as a struggle. - neighbourhood watch | |
| Community presence in stratford park has reduced ASB - council should encourage and fund these groups. | |
| Green streets, planting, pavement areas | |
| Green spaces not as simple as we think - so many different perspectives to consider - maybe a community meeting around green spaces? Instead of individually | |
| Basket ball courts could be repurposed - not used a lot | |
| All new initiatives should be environmentally friendly | |
| Don't just replace - repair | |
| There seems to be a lot in place already - possibly the problem is marketing. E.g. do people know the basket ball courts are free? Why do you have to contact Cllr to find out about when neighbourhood safety team are doing a walk about? This seems like a waste of time. | |
| Newham not necessarily responsible for creating green spaces, its often up to developper - therefore there needs to be a commitment written into contracts/plans. | |
| Connect groups working in this area, improve collaboration | |
| More use out of green spaces we have and turn derelict places into usable spaces - community growing, | |

[illegible]
