

The Pigskin Empire League Invitation

The Pigskin Empire was created to simulate owning an actual NFL Franchise. With rosters of a potential **52 players** (*40 active, eight taxi, four IR*) and **17 Starters** (*QB + eight offense & defense*), as well as a rabid trade market, offseason free agency, rookie drafts, increased cap penalties and cut penalties, as well as much more... The Pigskin Empire has turned into what many of our members consider their “Home” league.

The group started out as some family, some friends, and some random strangers from the internet (like you)—but now we’re close knit. We play madden online, talk other sports, do march madness and draft together in atlanta when possible + play in other leagues together too. Because we envision this league lasting decades or more, we’ve grown a sense of community that you can’t find in regular keeper or redraft leagues. The salary and IDP elements add, as mentioned, a simulated real life twist that we all enjoy.

Replacement Owner Accommodations

You will have anywhere from roughly 20% to 10% leftover cap after your introductory draft and the rookie draft, which you can utilize in free agency and trades to further customize your roster.

Additionally, for the following two years (2020 & 2021) you will each be awarded a supplemental pick at the end of the first round. The order for these picks will be determined inversely by possible points scored—a metric that takes nothing into consideration except the best possible rosters you could have fielded.

Thanks!
