

## Track it Forward Group Plan Email Pitch

Dear [Name],

I am with [Organization/Chapter] and have a proposal for [Larger/National Organization Name]. We use a software called Track it Forward to track our volunteer hours. The software allows volunteers to log hours and we run reports on the activity.

They have a new group plan that I think would work for other [chapters/locations] like ours. If the [Larger/National Organization Name] sponsors it, we can access discounts, advanced features and aggregate reporting.

I'd like to connect you with Track it Forward to learn more. You can schedule a live demo meeting with them [here](#).
