36th Annual National FETC 2016 FUTURE OF EDUCATION TECHNOLOGY CONFERENCE

JANUARY 12 - 15
ORANGE COUNTY CONVENTION CENTER
ORLANDO, FLA

Workshops: January 12 - 15
Conference & Expo: January 13 - 15

Flip Your Class: A Feasible Guide to Flipping Your Content

Click here to go back to the conference speaker page.

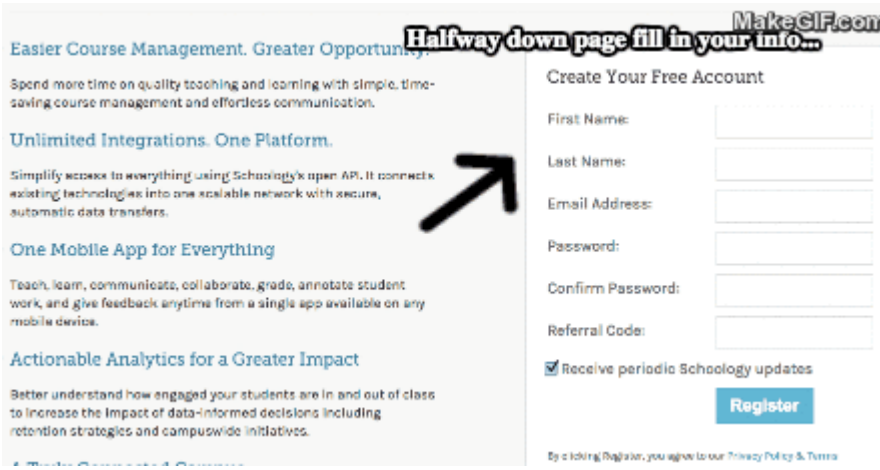

Session Description

This workshop is for teachers and administrators looking to learn about real-life strategies for the flipped model. Utilizing social networking sites like Edmodo/Schoology, Twitter, Sophia.org, Google and YouTube, you can successfully flip your class, even without a lot of available technology in your classroom. You'll leave with a fuller understanding of what the flipped classroom model is all about, as well as how you can accomplish this in every classroom.

Join Schoology

Click here to join Schoology if you don't already have an account. Join as an instructor, Schoology Course: WHGZX-VZSFW

Presenter: Nichole Carter

Position: TOSA Innovation Strategist
Organization: Beaverton School District
Location: District Office
Contact Email: mrscarterhla@gmail.com
Website: mrscarterhla.com

Bio:

Nichole Carter has been a middle school classroom teacher for eleven years, teaching both honors and regular ELA. She used the flipped classroom model with over 150 students for four years in a row, in a blended learning environment in a 1:1 iPad school. No stranger to technology integration, she is now an innovation strategist for the Beaverton School District, a 2015 PBS Digital Innovator, 2015 Schoology ambassador, co-authored a chapter in the book Flipped 2.0, and has presented nationally for AMLE, Schoology, and ISTE.

Collaborative Notes

Pick a spot in the table and just start typing.

Question (Any questions you have before, during, or after the meeting)	**Answer** (If I can't answer them right away I will research it and get back to you!)

General Notes:

(please add anything you want here)

Resources:

(Feel free to add your own resources!)

Now, for devices:

1. If you are coming with a Macbook, we will be using Quicktime for screencasting and making our own videos, another app- but it is expensive is camtasia- otherwise Quicktime is free and preloaded on all Macbooks!

2. If you are coming with a tablet please install the following: free (touchcast, educreations, nearpod, adobe voice, Videoscribe Anywhere) *optional paid app- but you get what you pay for and I would get it if you are thinking about using a whiteboard app explain everything 3.99

3. If you are coming with a PC I am going to suggest we use screencastomatic.com (free) and/or if you have a google account and are familiar with installing chrome apps and extensions I would love for us to use WeVideo and/or Snaggit or even Jing by Techsmith.
