

The two tricks to this popcorn being magical are as follows:

1. Use an old AF pot
2. Make sure you use good popcorn kernels (Orville Redenbacher's - don't let it go stale)

This is such an easy recipe idk why I'm making this but... whatever

1. Heat Oil in your old AF heavy bottomed pot (I grew up w Canola but now I use avocado oil as an adult)
2. Put 3 kernels in the pot with no lid on it... Wait for them to pop
3. Once the kernels have popped, put like a cup-ish of popcorn kernels into your pot and put on the lid
4. LISTEN for the pop pop pops to slow down
5. Put your popcorn into your Taylor Swift Limited Edition Popcorn Tin
6. Toss in salt
7. OPTIONAL: Melt butter in your popcorn oil, pour the butter over your tin
