

The intent of this document is a succinct introduction to the project, a “Onepager”, with specifics further developed in other documents.

## **Diamante Bridge**

### **A Holistic Integration Experience**

#### **Mission Statement:**

To provide a supportive, inclusive, and reflective environment for clarifying our relationships to ourselves, our loved ones, our collaborators, our community, and the land in order to create a foundational sustainable living bridge that is aligned with core community values. Thanks Dave! I agree that a main discussion with ALL potential collaborators and community members is getting a current understanding of how each of us interacts most energetically with the bridge concept and how that might fit within the organizational structure of the community. As the individual and community evolves there will be changes and ongoing conversations, that's why I used the term "living bridge". If needed, I'm definitely open to rewording the mission statement to be more clear, succinct, and universally applicable in relation to the intent of the project.

#### **Bridge** *noun*

1. a structure carrying a road, path, railway, etc. across a river, road, or other obstacle.
2. Wikipedia... In music, especially western popular music, a **bridge** is a contrasting section that prepares for the return of the original material section. In a piece in which the original material or melody is referred to as the "A" section, the bridge may be the third eight-bar phrase in a thirty-two-bar form (the B in AABA), or may be used more loosely in verse-chorus form, or, in a compound AABA form, used as a contrast to a full AABA section.

#### **Why:**

A deep desire for sustainable freedom

Bridging the gap of evolutionary transition I completely agree with the intent of establishing a Unified Field & Focus, and I would add that the specifics of this focus are applicable in all times and changing circumstances (outside of space and time).

Exemplifying the higher octave of love

#### **Feeling:**

Connected to nature and the natural cycles of life

Grounded and stable in reverent self-awareness

Harmonious transparent relationships with all inner and outer environments

### Core community values:

- Harmonizing human development with the natural environment, and finding creative and innovative solutions to enhance the relationship between the two.
- Prioritizing the health of whole systems, applying regenerative approaches when possible and coming to well considered compromises when aspects of systems are not mutually beneficial.
- Maintaining an ability to adapt to challenging situations with empathy, humility, and a willingness to continue learning, in order to expand the capacity of wise and empowered action.
- Findhorn Common Ground document feels like a good place to start, and modify if needed through the experience of striving to live by that statement.
- Ethics and principles of Permaculture

### Aesthetics:

Co-creating with nature to optimize beauty and harmony in the building of trails, structures, art installations, and infrastructure,

Finding simple and widely applicable solutions to minimize the resource demands and maximizing the efficiency of material and energetic investment

Curating personal, small group, and collective meeting spaces/areas/structures/agreements that allow for highly organized and aligned heart centered thoughts, words, and actions

### Core organizing principles:

Utilizing sacred geometry, numerology, astrology, deep listening, contemplation, meditation, to access and amplify the inspiration of unique individual and collective creativity

Embodying the ethics and principles of permaculture to ensure that all needs are met with efficiency and fairness, we apply practices of Non-Violent Communication, sociocracy and similar meeting structures (notes: Dragon Dreaming, "The Loop Approach") in order to effectively and harmoniously communicate at all levels

Implementing permaculture, bio-dynamics, agroforestry, syntropic farming, and other regenerative ecological practices to deepen our connection and resonance with our natural resources in order to thrive with reverence, abundance, and joy
